

KLARNA OFFICIAL (V1.4)

QUICK GUIDE

PRESTASHOP

INTRODUCTION

Integration to Klarna (KCO and KPM) for PrestaShop developed by Prestaworks AB..

ENABLE THE INTEGRATION

Upload the module to your server (modules/) and make sure to install it through back-office (Modules). It's important to configure the module afterwards with your details before you can manage real payments from customers.

MAIN TAB: KLARNA CHECKOUT (KCO)

TAB: GENERAL SETTINGS

ACTIVATE KCO IN THIS SHOP

Set this to use KCO in your shop.

TESTDRIVE

Activate test-mode in your shop.

SEND ID_ORDER AS ORDER IDENTIFIER

If set to yes id_order will be sent to Klarna instead of order reference.

ROUND OFF TOTAL

Amount will be rounded to closest whole number.

USE TWO COLUMN CHECKOUT

Change layout for checkout to two columns

ACTIVATE AUTOFOCUS

If set to yes, customer will be directed to the first input field of checkout
